PACKAGE CONTENTS

The USB Flash Disk JVJ DVR20 package contains the following items:

- o One USB Flash Disk DVR20
- o One Extended Cable
- o Quick Start Guide

If any of the above items are damaged or missing, please contact your dealer immediately.

CONNECTING

Following the steps to properly connect the USB Flash Disk JVJ DVR20 to your computer:

1. Power on your PC or Notebook.
2. Connect the USB Flash Disk JVJ DVR20 to free USB port on your PC or notebook. You can also use the extended cable to connect between the USB Flash Disk JVJ DVR20 and your PC/Notebook.

3. No additional driver installation is required. Driver will be installed automatically, and the USB Flash Disk JVJ DVR20 will be ready for use.

DISCONNECTING

You don't need to shutdown your computer to disconnect the USB Flash Disk, but to avoid losing data you should never remove the device from the USB port while the LED is flashing. If a drive window is open, closed any associated windows before attempting to remove your USB Flash Disk JVJ DVR20.

Use the "Safe to Remove Hardware" hotplug icon in the notification area of the taskbar where you usually see the current time displayed.

1. In the notification area, click on the " Safe to Remove hard ware" hotplug icon.

2. Select the device you want to unplug, and then click Stop.
3. When Windows notifies you then it is safe to do so, unplug the USB Flash Disk from your computer
